RESEARCH EXPERIENCE

Department of Infectious Disease, University of California Los Angeles 08/13-08/14
Co-Investigator

Topics: Assisting a clinic in Lilongwe, Malawi with instituting WHO guidelines for Cryptococcus screening for HIV infected patients with CD4<100 and tracking effect of this screening on mortality outcomes.

Department of Infectious Disease, University of California Los Angeles 08/13-08/14
Co-Investigator

Topics: Development of rapid, point of care testing for Carbapenem resistant gram negative bacteria. I obtained IRB approval, developed consent form, and collected samples to assist industry sponsored validation of new test.

Department of Infectious Disease, Detroit Medical Center, Detroit, Mi 08/11-06/12
Co-investigator

Topic: Retrospective study of outcomes with Empiric Cefepime vs. Carbapenems in ESBL-producing E. coli and K. pneumoniae blood stream infections.

Calvin College Biology Department, Grand Rapids, Mi 06/01-08/01
Research assistant

Topic: Hyaluronic Acid injections as a treatment for artificial joint replacement rejection by studying hyaluronic acid's effect on osteoblast growth using cell culture and AlamarBlue growth curves.
